

Pranalee Mansing Solaskar

I am looking forward for a position in a progressive company wherein I can get a better chance to learn modern technology available in the industry which can ultimately help me to increase my academics and to come up with new projects. I am an active learner and can grasp things within less time.

PROJECTS

Gaming and Chatting Application (12/2019- 04/2020)

- The project I created " Ludo " and "Tic-Tac -Toe" game And I also did socket based chatting program. The system also keeps the record of the users who chat, manages communication between users and their scores. The main purpose of this application is to provide users an application where they can chat and play games.
- **Technologies used:** Java.
- **Database:** MySQL

Evoting System (01/2022- 04/2022)

- Evoting System is a web based system that facilitates the running of elections and surveys online. This system has been developed to simplify the process of organizing elections and make it convenient for voters to vote remotely from their home computers while taking into consideration security.
- **Technologies used:** HTML, Java, CSS
- **Database:** MySQL
